

 **SIBAST**
FURNITURE

MADE IN DENMARK

Sibast No 8 is presented at the Stockholm Furniture Fair 2014.
Please visit **AG:38** outside Hall A exit 38 and meet the grandson of the designer.

Sibast Furniture launches Sibast No 8 in new Oil finish

The Danish design company Sibast Furniture is launching Sibast No 8 in a new Oil finish carefully selected by the grandson to the designer of Sibast No 8; Helge Sibast.

“We have chosen to launch Sibast No 8 in Oil finish because it serves the original design from 1953 in a fantastic way. It underlines the structure in the oak used and complements beautifully the unique design of the chair.” Says Ditlev Sibast, the grandson of the designer. *“With this new finish we bring the design from 1953 into today displaying a more modern and stylish interpretation of the Sibast No 8.”*

So far Sibast No 8 comes in black, soap finished and now in oiled oak, all which serves the chair with respect and illustrates how sustainable design looks beautiful in different finishes.

Sibast No 8 is manufactured in solid oak with upholstery in wool or leather

Sibast No 8 is the first chair re-launched by the Sibast family. It is produced in the original design from 1953 by Helge Sibast, and has since the 1950's been sold around the world.

Sibast No 8 is made in Denmark. The chair is made with high quality craftsmanship, so typical for Sibast Furniture designs and for Danish Furniture Design from the 1950's and 1960's. The characteristic y-shaped legs, the floating seat and the press molded back rest of the chair gives it a unique expression so essential for design by Helge Sibast and SIBAST Furniture.
