SIBAST FURNITURE

launches

SIBAST No 7 LOUNGE

by the new Sibast generation

...A DANISH DESIGN HERITAGE IS RENEWED...

Sibast No 7 Lounge takes its inspiration from the Sibast No 7 dining chair designed in 1953 by Helge Sibast. Now more than 60 years later the grandson of Helge Sibast, Ditlev Sibast interpreted the Sibast No 7 dining chair and together with his wife Anna he designed the Sibast No 7 Lounge chair.

Using the unique details from the Sibast No 7 like the large press moulded backrest and the slightly narrowed curve of the back legs Ditlev and Anna Sibast transformed the dining chair into the unique Sibast No 7 Lounge chair. Still carrying on the high quality craftsmanship and the relations represented by their family design heritage from the 1950'ties.

ABOUT SIBAST FURNITURE

Anna and Ditlev Sibast created the new design company Sibast Furniture in 2012 with the purpose of re-launching a Danish family design heritage since 1908 into the 21st century. They have re-launched designs from the 1950'ties by Ditlev's grandfather Helge Sibast together with new interpretations of their design legacy. The re-launches and product developments are handled with humility and respect for their Danish design heritage and always staying true to the design, quality and craftsmanship by which their grandfathers design legacy was made in.

"because our Danish design heritage commits us..."
Ditlev Sibast
